

UPGRADING THE PERFORMANCE OF DISTRICT HEATING NETWORKS

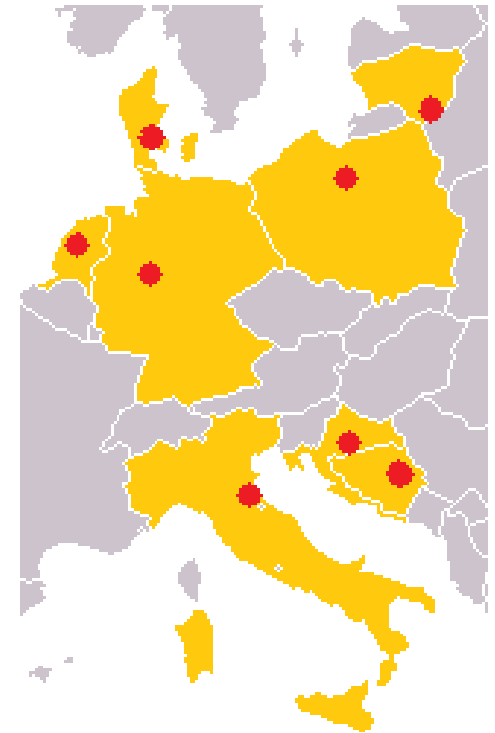

Dominik Rutz
WIP Renewable Energies

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 785014. The sole responsibility for the content of this report lies with the authors. It does not necessarily reflect the opinion of the European Union nor of the Executive Agency for Small and Medium-sized Enterprises (EASME). Neither the EASME nor the European Commission are responsible for any use that may be made of the information contained therein.

Project objectives

- Improve the performance of district heating networks in Europe
- Target countries: **Bosnia-Herzegovina, Denmark, Croatia, Germany, Italy, Lithuania, Poland, and The Netherlands**
- In each demo case, the upgrading process will be initiated at concrete DH grids. The gained knowledge and experiences will be further replicated to other European countries and DH systems in order to leverage the impact.

Project activities

- **Best practices**
(projects, tools, instruments)
- **Handbook** on upgrading
- **Stakeholder** involvement
- **Study tours**
- Information on **financing** and **business models**
- **Initiation of concrete upgrading solutions**
- Contribution to **regional action plans**
- Awareness raising
- Dissemination
